9th Forms Text:

The Jolly Rogers

- 1) The famous Rogers who, in a year, sell more than four million records, who are they? First of all they are a family: Frank Rogers, the father, was a musician; Nancy, the mother, played saxophone. They have had four children: a girl, Martha, and three boys, Marvin Ray and Sunny. They all work together in Massachussetts, USA.
- 2) It is mother Rogers who is behind every thing. She was very strict, having her children do the cleaning, washing up, milk the cows... The Rogers boys are not allowed cigarettes, cakes or drinks, but it doesn't matter for them because there are so many other interesting things in the world. a
- 3) Marvin, the eldest, enjoys football, riding, and loves animals. He helps his brother Ray with the writing of the songs for the group. He likes to talk and have fun with people.
- 4) Ray is one of the best drummers in the world, but what is funny about him is that he likes to make other people laugh! Also when he's not playing music, he takes photographs, plays football, dances and takes care of his dogs.
- 5) Sunny is the most popular with the girls. He enjoys meeting fans. He often leaves talks to others and just listens, that's why he looks quiet. But what is unusual about him is that he enjoys playing with anything electrical or mechanical. He has even made a little computer, clever Sunny!
