Read the text then answer the questions.

THE TEXT

① My name is Lisa. My journey to become a fashion designer started with my passion for creating things. My father was a carpenter and as a small girl, I would follow him around as he was working. I loved his ability to design and create new things. I tried to imitate him and even had my own work corner in his workshop.

② I'm not sure exactly when or how I got interested in designing, but I loved doing anything that allowed me to express my creativity. I used to spend my spare time looking into fashion websites and magazines to get ideas for designing my own handbags.

③ Five years ago, I decided to move to London and pursue my childhood dream. I began a course in fashion design at the University of Westminster. Few months later, I displayed my final collection of handbags at London Graduate Fashion Week. I was lucky that a famous designer saw my work and offered me a place in her prestigious fashion house.
